### OUR INTRODUCTIONS

#### INSIGNIA H. C.

1950 A. I. S. annual visitors made this selection. Pronounced a new type plicata, exceptionally delicate soft light coloring of white and cream creation.

Balanced segments of the blooms are of enduring quality. Well branched sturdy stalks. Cross No. IS-46.

Only a few rhizoms this seasons for

**\$25.00**

#### ALPINE SUNSET

A choice bright variegata.

The standard deep "Tansy Yellow," and of enduring substance.

The semi-flar round Falls are reminders of setting sun glow. Low branching, 36-inch stalk. Fine growing habits.

**\$1.00**

#### ALZA HOLA

A Spanish salute calling attention.

The colors of this iris may be visualized at a time when sun, unveiled sky and light cloud in relative view.

That ivory cloud with the blue of the sky filtering through and with the sun's delicate tracing.

**\$ .75**

#### BEAUTIFUL GALATEA

A self known as "Bridal Rose" Blushes.

The style together with the light pink shading give an iris of distinction. Beard rich orange. Sturdy 36 inch stalk.

**\$1.50**

## BLUSHING YOUTH

Deep "Petunia" pink self.

This is a rapid growing and free blooming iris; enduring substance and a finished bloom that will not be called a duplicate.

**\$1.00**

## BRIGHT MELODY

An attractive break in self color luscious ripe Concord grapes sheen and chestnut haft. a complete well balanced bloom.

Enduring substance, unusual deep texture, stalk branching at center, the predominant color shading off to a rich brown with the beard.

**\$2.00**

## CAPTAIN ROYAL

Noble blue self.

These iris blooms shape are much of El Mchr bold rigid form. The blue is that delightful moon beam skies.

**\$2.00**

## DECORATOR

A unique red self done in "Pipe Stone" "Peace Pipe tones. The wide branches claim one-half of the 40-inch stalk, suitable for adding height to spacious settings and the shadings are of the neutral harmony with other blends.

**\$1.25**

## DREAMLAND

A red self, classified by "Dictionary colors" as Deep Hollyhock tones.

One and only uniform color and texture throughout the blooms.

Distinctive waving edge of the modified flar rounded Falls, bright prominent lemon color beard for charm, weather enduring quality, no staining nor fading during the life of blooms. Well branching stalk, 38 inches in height. The foliage is of sufficient height and desirable quality encircling the stalks for a picturesque setting.

**\$2.00**

## ELIGIBLE

The new diversion of red self.

These unusually shaped blooms are of the admired autumn glowing "Sumac Red," enriched texture overcast with soft walnut brown finish. Heavy beard of the texture shading, enduring quality substance. The evening effect at sunset produces quite a different inclusion coloring of intense blood red.

**\$3.00**

## ENJOY

Blend.

This "Brazil" red-wood iris has a sheen of a varnished texture. Branching 32" stalk.

**\$5.00**

## FASHION

Self

A gesture of light cream toga on a classic shaped bloom.

The Standard have a proud carriage of a style show. Falls are of some spread for attraction and enhanced with brilliant golden beard for trim.

**\$4.00**

## GRATITUDE

Self "Blue-bell" tone.

A flower of rare coloring and of large choice form, spaced on sturdy branching stems.

The broad standard are domed and of weather resistance.

Falls are slightly flaring with edge ruffling. The light brown markings greatly enhances the beauty and charm to this self toned iris.

**\$6.50**

## HALCYON DAYS

A signal red self.

This iris is near to the medium tone Iowa wild rose, on the large supporting 40-inch stalk. The shape of the blooms are interesting with an inflated appearance. Fragrant.

**\$2.50**
